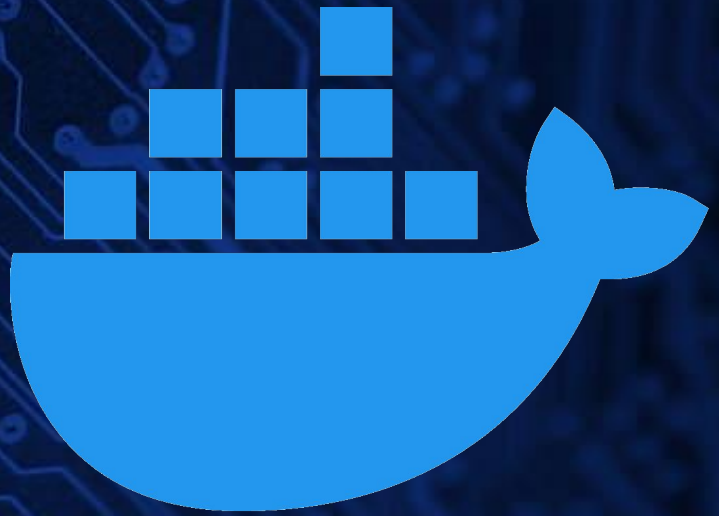
Docker : Docker MasterClass for DevOps



Manage Containers on Host Machine

Docker : Service Containers

- Learn Docker CLI to manage Docker.

- Docker Stop Docker Containers
  docker container stop <container_id>

- List all running and stopped containers
  docker containers ls
  docker containers ls -a

- Run vs Start Container
  run: start a new container always
  start: start a existing containers

Thank You...

Don’t be the Same! Be Better!!!
