

Red Hat Ansible : The Next Level

Transfer file from Engine to Clients

Ansible Automation

- User can copy the Files on Ansible Clients from Ansible Controller.
- Syntax -
`ansible [group] -m copy -a [src=sorce_path dest=destination_path]`
- Copy Content in new file is also possible.
- Syntax -
`ansible [group] -m copy -a [content="Your Content Here"
dest=destination_path]`

Thank You...

Don't be the Same! Be Better!!!
